Ask us about a service plan for your wide format equipment.

We are licensed and authorized representatives for Mutoh, Graphtec and Drytac equipment.

Our Calendered Film is ideal for short and medium term indoor and outdoor advertising with a solvent acrylic adhesive. These films work well with solvent, Eco-solvent and UV printers resulting in high resolution and vivid colors. In addition to excellent opacity and flatness these products offer excellent dimension stability.

WE AIM TO BE YOUR  
**ONE STOP SHOP**

#### QUALITY PRODUCTS – AFFORDABLE PRICES

We have packaged together the best promo and intermediate combination of cut vinyls, etched material, reflective printable vinyls, laminates, digital media, window perf, printable translucent, vehicle wrap, and magnetic materials to offer our customers the best value in the industry.

#### MATERIAL SPECIFICATIONS AND RECOMMENDATIONS

**Digital Media:** QDS Digital Media has something for every application. Please see the samples inside the color chart for details regarding application, durability and film specifications.

**4000E Series:** This 3.5 mil film is the perfect product for everyday use with outdoor durability of up to 5 years (6 for Black) with vertical exposure. This high gloss film comes with permanent acrylic adhesive.

**5000 and 6000 Series Reflectives:** The 5000 Series Commercial Grade Reflective sheeting is an economical retro-reflective material with 5 year durability. It is often used for promotional, industrial and decorative applications. The 6000 Series Engineer Grade Reflective sheeting has superior brightness and is suited for projects requiring high visibility day and night. Durability is 7 years.

**9000 Metalized Films:** Our Metalized Films add that glitz and glitter that may be desired on a specific sign or graphic. Typical outdoor durability is up to one year, based upon the exposure.

**4000MR Series:** This 3.5 mil matte film is ideal for signage, decal and craft projects. This product is especially versatile as it has a removable adhesive. Outdoor durability is up to 5 years with vertical exposure.

**Etch Films:** Our 2 mil cast etch films are the finest in the industry. Since applications vary widely, this product will last outdoors up to 7 years with vertical exposure and last indefinitely indoors. The calendered etch film is an outstanding glass enhancement product that will last up to 4 years outdoors with vertical exposure and indefinitely indoors.
